## MRS. WINN'S ADVICE TO WOMEN

Take Lydia E. Pinkham's Veg-  
etable Compound and be  
Restored to Health.

Kansas City, Mo.—"The doctors told  
me I would never be a mother. Every  
month the pains were so bad that I  
could not bear my weight on one foot.  
I began taking Lydia E. Pinkham's  
Vegetable Compound and had not  
finished the first bottle when I felt  
greatly relieved and took it until it  
made me sound and  
well, and I now have two fine baby  
girls. I cannot praise Lydia E. Pink-  
ham's Vegetable Compound too highly  
for what it has done for me. I always  
speak a word in favor of your medicine  
to other women who suffer when I have  
an opportunity."—Mrs. H. T. WINN,  
1225 Fremont Ave., Kansas City, Mo.

Read What Another Woman Says:  
Cumming, Ga.—"I tell some suffer-  
ing woman every day of Lydia E. Pink-  
ham's Vegetable Compound and what it  
has done for me. I could not eat or  
sleep, had a bad stomach and was in  
misery all the time. I could not do my  
housework or walk any distance without  
suffering great pain. I tried doctors'  
medicines and different patent medi-  
cines but failed to get relief. My hus-  
band brought home your Vegetable Com-  
pound and in two weeks I could eat any-  
thing, could sleep like a healthy baby,  
and walk a long distance without feeling  
tired. I can highly recommend your  
Vegetable Compound to women who  
suffer as I did, and you are at liberty to  
use this letter."—Mrs. CHARLIE HAN-  
LEY, R. 3, Cumming, Ga.

## LEPERS OF MAINLAND MAY COME

(Continued from page one)

Molokai. This plan is shown in the  
following three bills introduced in  
the house.

1. H. R. 17018, introduced on June  
3 by Congressman Fred A. Britten of  
Illinois, referred to committee on Ap-  
propriations:  
A bill to provide for the erection of a  
national leprosarium.

Be it enacted by the Senate and  
House of Representatives of the United  
States of America in Congress as-  
sembled, that the sum of \$500,000 re,  
and the same is hereby appropriated,  
out of any money in the treasury not  
otherwise appropriated, for the ac-  
quiring of a suitable site, the erection  
of suitable buildings and the equip-  
ment of the same, for the establish-  
ment of a national leprosarium.

Sec. 2. That the secretary of the  
treasury is hereby authorized to ap-  
point a board, to consist of the surgeon-  
general of the army, the surgeon-  
general of the navy, and the surgeon-  
general of the United States public health  
service, who shall examine and report  
within three months after the passage  
of this act on the selection of a suit-  
able site for the erection of the lepro-  
sarium; provided that no money shall be ex-  
pended until the site selected shall be  
provided by the secretary of the treasury.

Sec. 3. That the leprosarium shall  
be under the administration and juris-  
diction of the surgeon-general of the  
United States public health service,  
subject to such rules and regulations  
as may be promulgated by the secre-  
tary of the treasury.

Sec. 4. That under the authority  
granted by this act, the surgeon-  
general of the United States public health  
service is directed to receive into the  
leprosarium from any state any person  
afflicted with leprosy, the transpor-  
tation charges to be paid by the United  
States.

Sec. 5. That active building opera-  
tions on the erection of the leprosarium  
shall begin within six months after  
the passage of this act and proceed  
continuously and in an expeditious  
manner as possible until the same  
shall be completed.

2. H. R. 17019, introduced June 3  
by Congressman Albert Johnson of  
Washington and referred to commit-  
tee on Interstate and Foreign Com-  
merce.

A BILL  
Providing for the establishment on  
an island or the insular or territorial  
possessions of the United States a  
home for lepers.

Be it enacted by the Senate and  
House of Representatives of the United  
States of America in Congress as-  
sembled, That the surgeon-general of  
the United States public health ser-  
vice be, and he is hereby, authorized

to select an island in any of the insu-  
lar or territorial possessions of the  
United States for use as a national  
home for persons affected with lep-  
rosy.

Sec. 2. That the surgeon-general  
of the United States shall have power  
to acquire by condemnation or other-  
wise all property of the island select-  
ed, and that he shall erect thereon  
and equip all necessary buildings for  
the proper care and treatment of lep-  
ers, and for full investigation and  
study of the disease of leprosy.

Sec. 3. That the surgeon-general  
of the United States shall appoint all  
persons necessary for the conduct of  
said national home for leprosy.

Sec. 4. That the surgeon-general  
of the United States is directed to re-  
ceive from the proper officials, States,  
and territories all persons known to  
be affected with leprosy, and to trans-  
port them to said national home,  
transportation charges to be paid  
from the United States.

Sec. 5. That for the purpose of car-  
rying this act into effect there is here-  
by appropriated, out of any money in  
the treasury not otherwise appropri-  
ated, the sum of \$150,000, or as much  
thereof as may be needed.

H. R. 17040, introduced on June 4  
by Congressman Albert Johnson of  
Washington and referred to commit-  
tee on Interstate and Foreign Com-  
merce:

A BILL  
Providing for the payment to the ter-  
ritorial government of Hawaii for the  
care of citizens of continental United  
States who are, or who may become,  
affected with leprosy.

Be it enacted by the Senate and  
House of Representatives of the United  
States of America in Congress as-  
sembled, That the secretary of the  
treasury be, and is hereby, authorized  
to enter into an agreement with the  
territorial government of Hawaii by  
which said territorial government shall  
care for at the leper colony on one of  
the Hawaiian Islands all citizens of  
the United States who are, or who  
may become, affected with leprosy,  
and who agree voluntarily to take up  
their residence on the island design-  
ated.

Sec. 2. That transportation of per-  
sons affected with leprosy between  
the various states of the United States  
and the Hawaiian Islands shall be un-  
der regulations provided by the sur-  
geon-general of the United States.

Sec. 3. That there shall be paid to  
any official of the territorial govern-  
ment of Hawaii who may be design-  
ated to receive the sum of \$300  
per annum for each citizen of the  
United States who shall take up and  
continue his residence in the leper  
colony of Hawaii.

Sec. 4. That there shall be paid to  
each citizen of continental United  
States who shall become a resident of  
said leper colony the sum of \$240 per  
annum during his residence there.

The discussion on June 4 was led  
by Congressman Johnson, from whose  
state the leper, Early, had escaped.

He told the house that it seems im-  
practicable to find any place in the  
continental United States to receive  
without protest the lepers of the coun-  
try, referred to the successful protest  
that the delegate from Alaska made  
against the getting apart of one of the  
Aleutian islands for lepers and then  
proceeded to develop the suggestion  
that the island of Molokai be used

## ALEC DESHA IS LET DOWN WITH A FINE OF \$15

Alec Desha, well known in base-  
ball circles, charged with a brutal as-  
sault upon David Shaw, 11-year-old  
son of Superintendent James Shaw of  
McCabe, Renny & Hamilton, left dis-  
trict court following his hearing be-  
fore Judge Monsarrat this morning,  
with the payment of a nominal fine of  
\$15 and costs.

Taking into consideration the nature  
of the assault brought to light through  
statements made by the boy, who is  
alleged to have been under treatment  
by Dr. C. B. Cooper at Queen's hos-  
pital for 48 hours after the assault,  
the sentence imposed by the magis-  
trate proved a topic of much comment  
around police station and with a dele-  
gation of lawyers who watched the  
case with more than passing interest.

Desha pleaded guilty to the charge  
of assault, denying, however, that he  
administered blows other than by his  
hand across young Shaw's face. He  
admitted that the boy fell to the  
ground on the evening of June 13,  
while the trouble was in progress near  
the Kulul street entrance to the ball  
park, and in doing so may have suf-  
fered other injuries.

Deputy Prosecuting Attorney Brown  
asked for the infliction of a substan-  
tial penalty. District Magistrate Mon-  
sarrat failed to grant the request, tak-  
ing the ground that Shaw neglected  
to produce witnesses who would tes-  
tify to the alleged serious nature of  
the assault.

The absence of all the supervisors  
but two at the special meeting called  
for last night for the consideration of  
the protests made against the im-  
provement of lower Manoa road under  
the direct frontage tax statute, made  
it necessary for a new date to be set  
for the hearing. The new meeting  
was set for Wednesday at 1:30 o'clock  
in the evening. Supervisors McEl-  
lison and Petrie were the only members  
of the board present. There were  
about ten Manoa property owners on  
hand.

The late Thomas J. Barratt, of  
Pearl Harbor, paid \$10,500 at auction  
for Nelson's log of the "Victory," to pre-  
vent its purchase by an American,  
and subsequently declined to receive  
the amount from the government,  
preferring to retain the historic docu-  
ment.

for the purpose. The introduction of  
his bills shows the definite outline of  
the plans.

It was stated this morning that the  
Chamber of Commerce will be asked  
to take up the matter with a view to  
lodging a vigorous protest on the  
grounds that it is unfair and harmful  
to Hawaii to send mainland lepers  
here.

POWDER SCENTED  
WITH ROSE LEAVES

DID you ever scent your own powder  
with fresh roses? If you have  
done it once you will want to do it  
again, and if you never have done it  
try it this year.

Make a powder from three parts of  
fine rice starch and one part of rose  
root. Put it in a tin box which has a  
tight cover and bury fresh, strongly  
scented rose leaves in it. Leave them  
there for a day and then take them  
out and put in fresh ones. Keep this  
up for a week and at the end of that  
time the powder will be deliciously  
scented.

For the Boudoir

Every hostess has her individual  
taste in tea trays and the tea tray, by  
the way, is very much "the thing." It  
is brought in by a neat little maid and  
set on a small folding table by the  
hostess, and if there are a number of  
guests there may be two trays and  
two tables in the English fashion. The  
woman who owns a silver tray has  
it polished until it fairly dazzles  
the eye and then she tells its brilliancy  
with a thin handkerchief linen cloth.  
Glass covered trays with odd rims are  
very handsome and are much prized  
by their possessors. The woman who  
does not own a silver tray and cannot  
afford a wood covered one may invest  
in a bamboo tray and have a glass  
slab cut in exactly the size to fit with-  
in its shallow rim. These trays come  
in many sizes and are not at all ex-  
pensive. A round or oval piece of  
printed blue and white Japanese toweling  
will look well under the glass on the  
bottom of the tray.

What to Do With the Old Nightgowns.

Nightgowns have a provoking way  
of wearing out at the top, while the  
lower part is still good. Cut the top  
from an old worn gown and sew up  
the top edge, leaving an aperture for  
the hook of an ordinary garment  
larger to pass through. The long bag  
formed will fall over light gowns, pro-  
tecting without injuring them.

New Ideas For the Guest Room.

The newest border device for the  
guest towel is a sentimental affair well  
suited to a charming boudoir where  
women friends are luxuriously domi-  
ciled, but scarcely appropriate for a  
man's room. At each end of the towel  
are garlands of tiny flowers, and  
against these two cupids, tinted pink  
and outlined with green stitch, disport  
themselves. Over flowers and cupids  
hover butterflies, also outlined in green  
stitch. Charming guest towels for a

Make Baby Comfortable In Summer

FEW young mothers realize how very  
weakening it is for a baby to pers-  
pire too freely, said a grandmother  
recently.

Caps and bonnets often cause dread-  
ful perspiration in the head, and I have  
seen a pillow drenched with moisture  
when the child was lifted out of its  
carrage.

For this reason I never put anything  
on my grandchild's head when she  
goes out in the carriage in warm  
weather. The hood affords quite suf-  
ficient protection from possible drafts,  
and baby sleeps ever so much better  
with her little soft head on a smooth  
pillow than when irritated with the  
tiresome frills and strings that com-  
pose an infant's headgear.

When the time comes for baby to be  
short-circuited it is not wise to discard a  
binder altogether, but the long strip of  
flannel can be left off and a little  
woolen "tummy belt" can be substi-  
tuted.

This belt is knitted in very fine white  
wool and can be slipped on round  
baby's body without the bother of  
safety pins or sewing.

Sandals may be very cool and com-  
fortable for children's summer wear,  
but in some cases they do more harm  
than good.

For a child with weak ankles, for  
instance, they are most unsuitable,  
there being practically no support to  
the foot, as there is with shoes or  
boots.

After wearing sandals for some  
months last year I found that my  
grandchild's foot turned over when he  
walked to such an extent that the  
doctor ordered boots for indoor as well  
as outdoor wear in order to get the  
ankle strong again.
